

## 7" Chamfered Box Gutter - Seamless

New Castle Metals 7" Chamfered Box Gutter is the ideal blend between performance and modern aesthetics. The BG7 profile is a suitable choice for modern residential projects as well as large scale commercial and industrial properties that demand high volume drainage solutions. With a 7" opening, 6.25" depth, and bottom width of 5" the BG7 is capable of providing

drainage for the largest projects. Available with or without a hooked back to incorporate a roof flange. It can be factory formed in lengths of up to 40-ft or site-formed and cut to your projects exact sizes.

Be sure to ask about our complete line of matching drainage components.

Gutter Material	Hanger Material	Face Size	GT-1 Certified Pressure
